

## SAFETY DATA SHEET

2570S v11.0  
en/US

# 1. Identification of the substance/mixture and of the company/undertaking

<b>Product name</b>	LF Epoxy DTM Primer Dark Gray	
<b>Product code</b>	2570S	Formula date: 2018-02-09
<b>Intended use</b>	Coating for professional use  Axalta Coating Systems, LLC Applied Corporate Center 50 Applied Bank Boulevard, Suite 300 US Glen Mills, PA 19342	
<b>Telephone</b>	Product information	(855) 6-AXALTA
	Medical emergency	(855) 274-5698
	Transportation emergency	(800) 424-9300 (CHEMTREC)

## 2. Hazards identification

This preparation is hazardous per the following GHS criteria

### GHS-Classification

Flammable liquids	Category 2
Skin corrosion/irritation	Category 2
Serious eye damage/eye irritation	Category 2A
Skin sensitisation	Category 1
Carcinogenicity	Category 2
Toxicity for reproduction	Category 2
Target Organ Systemic Toxicant - Repeated exposure	Category 1

### GHS-Labeling

Hazard symbols

Signal word: Danger

Hazard statements

Highly flammable liquid and vapour.  
Causes skin irritation.  
May cause an allergic skin reaction.  
Causes serious eye irritation.  
Suspected of causing cancer.  
Suspected of damaging fertility or the unborn child.  
Causes damage to organs through prolonged or repeated exposure.

Precautionary statements

Obtain special instructions before use.  
Keep away from heat/sparks/open flames/hot surfaces. No smoking.  
Keep container tightly closed.  
Ground/bond container and receiving equipment.  
Use explosion-proof electrical/ventilating/lighting equipment.  
Use only non-sparking tools.  
Take precautionary measures against static discharge.

**SAFETY DATA SHEET**

2570S v11.0

en/US

Do not breathe dust/ fume/ gas/ mist/ vapours/ spray.

Do not eat, drink or smoke when using this product.

Contaminated work clothing should not be allowed out of the workplace.

Wear protective gloves/protective clothing/eye protection/face protection.

IF ON SKIN: Wash with plenty of soap and water.

IF ON SKIN (or hair): Remove/ Take off immediately all contaminated clothing. Rinse skin with water/ shower.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

IF exposed or concerned: Get medical advice/ attention.

Specific treatment (see supplemental first aid instructions on this label).

If skin irritation or rash occurs: Get medical advice/ attention.

If eye irritation persists: Get medical advice/ attention.

Take off contaminated clothing and wash before reuse.

Store in a well-ventilated place. Keep cool.

Store locked up.

Dispose of contents/container in accordance with local regulations.

**Other hazards which do not result in classification**

Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal.

**The following percentage of the mixture consists of ingredient(s) with unknown acute toxicity:**

0 %

**3. Composition/information on ingredients**

Mixture of synthetic resins, pigments, and solvents

**Components**

CAS-No.	Chemical name	Concentration
25036-25-3	Epoxy resin	15 - 26%
13983-17-0	Wollastonite	15 - 26%
1330-20-7	Xylene	10%
67-64-1	Acetone	4 - 15%
1317-65-3	Limestone (calcium carbonate)	4 - 15%
108-65-6	Propylene glycol monomethyl ether acetate	4 - 15%
7779-90-0	Zinc phosphate	3%
100-41-4	Ethylbenzene	2.6%
1314-13-2	Zinc oxide	2%
123-86-4	Butyl acetate	1 - 4%
123-42-2	Diacetone alcohol	1 - 4%
110-43-0	Methyl amyl ketone	1 - 4%
108-10-1	Methyl isobutyl ketone	1.3%
71-36-3	N-butyl alcohol	1%
13463-67-7	Titanium dioxide	2.0%

## SAFETY DATA SHEET

2570S v11.0  
en/US

CAS-No.	Chemical name	Concentration
108-88-3	Toluene	1%
1333-86-4	Carbon black	0.6%
25068-38-6	Bisphenol-epichlorohydrin type polymer	0.0 - 1.0%

Any concentration shown as a range is due to batch variation.

Non-regulated ingredients 10 - 20%

OSHA Hazardous: Yes

## 4. First aid measures

### Eye contact

Remove contact lenses. Irrigate copiously with clean, fresh water for at least 15 minutes, holding the eyelids apart. Seek medical advice.

### Skin contact

Do NOT use solvents or thinners. Take off all contaminated clothing immediately. Wash skin thoroughly with soap and water or use recognized skin cleanser. If skin irritation persists, call a physician.

### Inhalation

Avoid inhalation of vapour or mist. Move to fresh air in case of accidental inhalation of vapours. If breathing is irregular or stopped, administer artificial respiration. If unconscious place in recovery position and seek medical advice. If symptoms persist, call a physician.

### Ingestion

If swallowed, seek medical advice immediately and show this safety data sheet (SDS) or product label. Do NOT induce vomiting. Keep at rest.

### Most Important Symptoms/effects, acute and delayed

#### Inhalation

May cause nose and throat irritation. May cause nervous system depression characterized by the following progressive steps: headache, dizziness, nausea, staggering gait, confusion, unconsciousness. Reports have associated repeated and prolonged overexposure to solvents with permanent brain and nervous system damage.

#### Ingestion

May result in gastrointestinal distress.

#### Skin or eye contact

May cause irritation or burning of the eyes. Repeated or prolonged liquid contact may cause skin irritation with discomfort and dermatitis.

### Indication of Immediate medical attention and special treatment needed if necessary

No data available on the product. See section 3 and 11 for hazardous ingredients found in the product.

## 5. Firefighting measures

### Suitable extinguishing media

Universal aqueous film-forming foam, Carbon dioxide (CO<sub>2</sub>), Dry chemical

### Extinguishing media which shall not be used for safety reasons

High volume water jet

### Hazardous combustion products

CO, CO<sub>2</sub>, smoke, and oxides of any heavy metals that are reported in "Composition, Information on Ingredients" section.

## SAFETY DATA SHEET

2570S v11.0  
en/US

### Fire and Explosion Hazards

Flammable liquid. Vapor/air mixture will burn when an ignition source is present.

### Special Protective Equipment and Fire Fighting Procedures

Full protective flameproof clothing should be worn as appropriate. Wear self-contained breathing apparatus for firefighting if necessary. In the event of fire, cool tanks with water spray. Do not allow run-off from fire fighting to enter public sewer systems or public waterways.

## 6. Accidental release measures

### Procedures for cleaning up spills or leaks

Ventilate area. Remove sources of ignition. Prevent skin and eye contact and breathing of vapor. Wear a properly fitted air-purifying respirator with organic vapor cartridges (NIOSH approved TC-23C), eye protection, gloves and protective clothing. Confine, remove with inert absorbent, and dispose of properly.

### Environmental precautions

Do not let product enter drains. Notify the respective authorities in accordance with local law in the case of contamination of rivers, lakes or waste water systems.

## 7. Handling and storage

### Precautions for safe handling

Observe label precautions. Keep away from heat, sparks, flame, static discharge and other sources of ignition. VAPORS MAY CAUSE FLASH FIRE. Close container after each use. Ground containers when pouring. Do not transfer contents to bottles or unlabeled containers. Wash thoroughly after handling and before eating or smoking. Do not store above 49 °C (120 °F). If material is a coating: do not sand, flame cut, braze or weld dry coating without a NIOSH approved air purifying respirator with particulate filters or appropriate ventilation, and gloves. Combustible dust clouds may be created where operations produce fine material (dust). Avoid formation of significant deposits of material as they may become airborne and form combustible dust clouds. Build up of fine material should be cleaned using gentle sweeping or vacuuming in accordance with best practices. Cleaning methods (e.g. compressed air) which can generate potentially combustible dust clouds should not be used.

### Advice on protection against fire and explosion

Solvent vapours are heavier than air and may spread along floors. Vapors may form explosive mixtures with air and will burn when an ignition source is present. Always keep in containers of same material as the original one. Never use pressure to empty container: container is not a pressure vessel. The accumulation of contaminated rags may result in spontaneous combustion. Good housekeeping standards and regular safe removal of waste materials will minimize the risks of spontaneous combustion and other fire hazards.

### Storage

### Requirements for storage areas and containers

Observe label precautions. Store in a dry, well ventilated place away from sources of heat, ignition and direct sunlight. No smoking. Prevent unauthorized access. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

### Advice on common storage

Store separately from oxidizing agents and strongly alkaline and strongly acidic materials.

OSHA/NFPA Storage Classification: IB

## 8. Exposure controls/personal protection

### Engineering controls and work practices

Provide adequate ventilation. This should be achieved by a good general extraction and -if practically feasible- by the use of a local exhaust ventilation. If these are not sufficient to maintain concentrations of particulates and solvent vapour below the OEL, suitable respiratory protection must be worn.

**SAFETY DATA SHEET**

2570S v11.0

en/US

**National occupational exposure limits**

CAS-No.	Chemical name	Source	Time	Type	Value	Note
25036-25-3	Epoxy resin	ACGIH	8 hr	TWA	10 mg/m3	Total Dust

		OSHA	8 hr	TWA	3.5 mg/m3	
		Dupont	8 & 12 hour	TWA	0.5 mg/m3	

**Glossary**

CEIL	Ceiling exposure limit
STEL	Short term exposure limit
TL	Threshold limits
TLV	Threshold Limit Value
TWA	Time weighted average
TWAE	Time-Weighted Average

**Protective equipment**

Personal protective equipment should be worn to prevent contact with eyes, skin or clothing.

**Respiratory protection**

Do not breathe vapors or mists. Wear a properly fitted air-purifying respirator with organic vapor cartridges (NIOSH approved TC-23C) and particulate filter (NIOSH TC-84A) during application and until all vapors and spray mists are exhausted. In confined spaces, or in situations where continuous spray operations are typical, or if proper air-purifying respirator fit is not possible, wear a positive pressure, supplied-air respirator (NIOSH TC-19C). In all cases, follow respirator manufacturer's directions for respirator use. Do not permit anyone without protection in the painting area.

**Eye protection**

Desirable in all industrial situations. Goggles are preferred to prevent eye irritation. If safety glasses are substituted, include splash guard or side shields.

**Skin and body protection**

Neoprene gloves and coveralls are recommended.

**Hygiene measures**

Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.

**Environmental exposure controls**

Do not let product enter drains.

For ecological information, refer to Ecological Information Section 12.

## 9. Physical and chemical properties

**Appearance**

**Form:** liquid      **Colour:** grey

**SAFETY DATA SHEET**

2570S v11.0

en/US

Flash point	20 °F	
Lower Explosive Limit	1 %	
Upper Explosive Limit	6.6 %	
Evaporation rate	Slower than Ether	
Vapor pressure of principal solvent	12.9 hPa	
Water solubility	moderate	
Vapor density of principal solvent (Air = 1)	3.7	
Approx. Boiling Range	56 °C	
Approx. Freezing Range	-48 – 1540 °C	
Gallon Weight (lbs/gal)	11.93	
Specific Gravity	1.43	
Percent Volatile By Volume	56.15%	
Percent Volatile By Weight	34.04%	
Percent Solids By Volume	43.85%	
Percent Solids By Weight	65.96%	
pH (waterborne systems only)	Not applicable	
Partition coefficient: n-octanol/water	No data available	
Ignition temperature	272 °C	DIN 51794
Decomposition temperature	Not applicable.	
Viscosity (23 °C)	Not applicable.	ISO 2431-1993
VOC* less exempt (lbs/gal)	3.8	
VOC* as packaged (lbs/gal)	3.6	

Does not sustain combustion.

\* VOC less exempt (theoretical) and VOC as packaged (theoretical) are based upon the VOC of the packaged material at the point of manufacture.

## 10. Stability and reactivity

### Stability

Stable

### Conditions to avoid

Stable under recommended storage and handling conditions (see section 7).

### Materials to avoid

None reasonably foreseeable.

### Hazardous decomposition products

When exposed to high temperatures may produce hazardous decomposition products such as carbon monoxide and dioxide, smoke, oxides of nitrogen.

### Hazardous Polymerization

Will not occur.

### Sensitivity to Static Discharge

Solvent vapors in air may explode if static grounding and bonding is not used during transfer of this product.

### Sensitivity to Mechanical Impact

None known.

## 11. Toxicological information

**SAFETY DATA SHEET**

2570S v11.0

en/US

**Information on likely routes of exposure****Inhalation**

May cause nose and throat irritation. May cause nervous system depression characterized by the following progressive steps: headache, dizziness, nausea, staggering gait, confusion, unconsciousness. Reports have associated repeated and prolonged overexposure to solvents with permanent brain and nervous system damage.

**Ingestion**

May result in gastrointestinal distress.

**Skin or eye contact**

May cause irritation or burning of the eyes. Repeated or prolonged liquid contact may cause skin irritation with discomfort and dermatitis.

**Delayed and immediate effects and also chronic effects from short and long term exposure:****Acute oral toxicity**

not hazardous

**Acute dermal toxicity**

not hazardous

**Acute inhalation toxicity**

not hazardous

% of unknown composition: 0 %

**Skin corrosion/irritation**

N-butyl alcohol	Category 2
Toluene	Category 2
Bisphenol-epichlorohydrin type polymer	Category 2

**Serious eye damage/eye irritation**

Epoxy resin	Category 2A
Wollastonite	Category 2B
Xylene	Category 2A
Acetone	Category 2A
Limestone (calcium carbonate)	Category 2A
Propylene glycol monomethyl ether acetate	Category 2B
Diacetone alcohol	Category 2A
Methyl isobutyl ketone	Category 2A
N-butyl alcohol	Category 1
Bisphenol-epichlorohydrin type polymer	Category 2A

**Respiratory sensitisation**

Not classified according to GHS criteria

**Skin sensitisation**

Epoxy resin	Category 1
-------------	------------

## SAFETY DATA SHEET

2570S v11.0  
en/US

Bisphenol-epichlorohydrin type polymer Category 1

### Germ cell mutagenicity

Not classified according to GHS criteria

### Carcinogenicity

Ethylbenzene	Category 2
Titanium dioxide	Category 2
Carbon black	Category 2

### Toxicity for reproduction

Toluene Category 2

### Target Organ Systemic Toxicant - Single exposure

Not classified according to GHS criteria

### Target Organ Systemic Toxicant - Repeated exposure

- Inhalation

**Respiratory system** Carbon black

### Aspiration toxicity

Not classified according to GHS criteria

### Numerical measures of toxicity (acute toxicity estimation (ATE),etc. )

No information available.

### Symptoms related to the physical, chemical and toxicological characteristics

Exposure to component solvents vapours concentration in excess of the stated occupational exposure limit may result in adverse health effect such as mucous membrane and respiratory system irritation and adverse effect on kidney, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and in extreme cases, loss of consciousness. Through skin resorption, solvents can cause some of the effects described here. Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in non-allergic contact dermatitis and absorption through the skin. The liquid splashed in the eyes may cause irritation and reversible damage. Based on the properties of the epoxy constituent(s) and considering toxicological data on similar preparations, this preparation may be a skin sensitiser and an irritant. Low molecular epoxy constituents are irritating to eyes, mucous membranes and skin. Repeated skin contact may lead to irritation and to sensitization, possibly with cross-sensitization to other epoxies. Avoid skin and eye contact. Avoid inhalation of vapour or mist.

### Whether the hazardous chemical is listed by NTP, IARC or OSHA

Ethylbenzene	IARC 2B
Methyl isobutyl ketone	IARC 2B
Titanium dioxide	IARC 2B
Carbon black	IARC 2B

## 12. Ecological information

There are no data available on the product itself. The product should not be allowed to enter drains or watercourses.

## 13. Disposal considerations

### Waste Disposal Method

Do not allow material to contaminate ground water systems. Incinerate or otherwise dispose of waste material in accordance with Federal, State, Provincial, and local requirements. Do not incinerate in closed containers.

**SAFETY DATA SHEET**

2570S v11.0

en/US

## 14. Transport information

### International transport regulations

**IMDG (Sea transport)**

UN number: 1263  
Proper shipping name: PAINT

Hazard Class: 3  
Subsidiary Hazard Class: Not applicable.  
Packing group: II  
Marine Pollutant: yes [trizinc bis(orthophosphate)]  
EmS: F-E,S-E

**ICAO/IATA (Air transport)**

UN number: 1263  
Proper shipping name: PAINT

Hazard Class: 3  
Subsidiary Hazard Class: Not applicable.  
Packing group: II

**DOT**

UN number: 1263  
Proper shipping name: PAINT

Hazard Class: 3  
Subsidiary Hazard Class: Not applicable.  
Packing group: II  
Marine Pollutant: yes [trizinc bis(orthophosphate)]

The transport information is for bulk shipments. Exceptions may apply for smaller containers.

**Matters needing attention for transportation**

Confirm that there is no breakage, corrosion, or leakage from the container before shipping. Be sure to prevent damage to cargo by loading so as to avoid falling, dropping, or collapse. Ship in appropriate containers with denotation of the content in accordance with the relevant statutes and rules.

## 15. Regulatory information

**TSCA Status**

In compliance with TSCA Inventory requirements for commercial purposes.

**DSL Status**

All components of the mixture are listed on the DSL.

**Photochemical Reactivity**

Photochemically reactive
